

CC4C shares with you

Tidings OF COMFORT & JOY

SUSIE Q

This playful little girl was found as a kitten, drenched to the bone during the March storms of 2013. Now about 1 year old, "Susie Q" is sweet and shy, enjoying playtime at her foster home, and waiting for her next "March Miracle" – a permanent home!

HAN & LUKE

These sweet brothers were found in a box at the Fix Our Ferals clinic in Richmond, and CC4C took them in. They were only 4 or 5 weeks old, and clung to each other for security – still do today. Their fabulous foster couldn't bear to part with them, so now Han and Luke are part of the foster's family in Orinda.

During this holiday time, the volunteers at Community Concern for Cats love to review the successes of the past year – the rescues and adoptions that your donations helped make possible in this our 28th year of operation.

This year, we wanted to share with you some of the heartwarming photos that keep us going in the face of cold trapping weather and the cold-hearted abandonment of unfixed cats, adding to the overpopulation cycle.

Some of the CC4C rescued cats pictured here are enjoying the "comfort & joy" of a new home. Others are still hoping to get a home for the holidays – or any day! But all have a warm, comfortable place to be as winter sets in.

Many thanks for your part in making these happy photos happen!

SUZIE & STREAK

These two youngsters were left behind at an apartment complex after college students left for the summer. Suzie and Streak comfort each other in their cushy bed, sharing dreams of a new home.

STORMY

Stormy was rescued from a dangerous industrial setting. He has now discovered that happiness is a warm chest, but would gladly move to your house for a forever home.

*See page 2
for more good tidings...*

Here comes the "JOY" part!

SOLO

Solo was rescued with a plastic cup wedged around his neck, trying to survive on bits of plastic and wood in a trash area. It took the patient trapping skills of a CC4C member to rescue him from the fast food restaurant in a busy mall parking lot. Scrawny and scared then, Solo is now enjoying the comforts of a new home with friendly cat and dog roomies.

GAIUS & JOSEPHINE

Gaius the Siamese kitten was the last (and possibly best) kitten of a feral mom who had produced multiple litters while avoiding traps for years before finally getting caught. Gaius was born "in captivity" so was handled early and often. Here he submits to the cozy clutches of his big "sister," Josephine in his new home.

Wonderful ways CC4C has been supported this year.

The following veterinarians and their super staffs have gifted us with skilled, compassionate care and rescue discounts:
